DOLPHIN DESIGN

Enabling Ultra low-power SoC designs

Our Expertise!

ASIC
Application-specific integrated circuit

IP Portfolio
More than 300 IPs configurations available

SPIDER — Power Management
Mixed-Signal IP platform

BAT — Audio converter
Audio MxSg IP platform

CHAMELEON — ULP MCU subsystem
Sensor-centric MCU subsystem

RAPTOR — Neural Processor Unit
Computer Vision

WE TECH IT ON

Why Choose Dolphin Design

- Accelerate your Time-to-Money
- Mitigate your technical risks
- Focus on your core expertise
- Silicon proven Ips
- User friendly ecosystem
- In house test/characterization Lab
- Arm design partner
- Risc-V CPU in house expertise
- Our IPs use Dolphin Design's patented technology
